To whom it may concern

Dear Sir/Madam,

My team had been working with Moodle for 2 years to move our internal training program onto this LMS.

When we engaged Genashtim Innovative Learning Pte Ltd in May 2015, they were able to customise their solution to meet our requirements. They have helped overcome the initial hurdle of uploading our training content onto the platform, and are now providing remote support to maintain the platform. They are also hosting the Moodle platform for us so that we do not need to purchase expensive storage or systems.

We have been satisfied with Genashtim as a service provider. They are very prompt and efficient. When we send them a new training program with a deck of slides, they are able to turn around the job in a few short days, including adding some instructional design with voice-overs, and interactive tools.

We have no hesitation in recommending Genashtim to help any company in migrating their training programs onto an eLearning platform. The ease to work with them is most important to us. Their employees have wide range of skills and knowledge, and their pricing makes them a relatively low-risk option to any organization who are making their first investment for eLearning. Should you require any further clarifications, please feel free to contact me at [r.phoey@dhl.com](mailto:r.phoey@dhl.com).

Yours sincerely,

Rose Phoey
